

Many headquarters of renowned national and global health organizations are located in metro Atlanta, including:

- The Centers for Disease Control & Prevention (CDC)
- American Cancer Society
- Arthritis Foundation
- CARE (Cooperation for Assistance and Relief Everywhere)
- The Carter Center
- The Task Force for Global Health

Recognized as the Center of Global Health, metro Atlanta and Georgia are powerful hubs for the rapidly growing bioscience industry. With a robust innovation economy, metro Atlanta has the potential to create thousands more jobs per year in the cold chain storage, fill and finish hematology and immunology, medical devices and health IT sectors.

- Alcon
- Allscripts
- Bard
- The Centers for Disease Control and Prevention
- Change Healthcare
- CryoLife
- Ethicon
- FDA
- Given Imaging
- Immucor Gamma
- Kimberly Clark
- Medline
- Osmotica Pharmaceutical
- Shire
- UCB

The state's bioscience community draws from the strengths of world-class universities, the most advanced research programs, a strong talent pool and extraordinary technology resources.

Georgia is also a recognized leader in the areas of cold chain storage, fill and finish hematology and immunology, medical devices and health IT.
